DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on 10/31/2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,594,338 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 2-6, 9 and 11-15 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

Regarding claims 2-6, 9 and 11-15, the prior art fails to teach an object imaging method by measuring values of scattered radiation in passing an initial radiation through an imitation of an object, calculating transposition coefficients relating the scattered radiation through the object to the scattered radiation through the imitation based on the initial radiation, the total measurement radiation through the object and a total measurement radiation through the imitation, wherein the values of total measurement radiation through the objects, the values of scattered radiation through the imitation and the transposition coefficients being spread in respective tables comprising elements so that each of the transposition coefficient is associated to a respective part of the object as claimed in independent claim 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
